Varrun SS

Results-driven full-stack developer with a proven record in leading teams and delivering high performing secure application. Recognized for expertise in resolving complex issues and the ability to grasp concepts quickly. Seeking a challenging role to leverage my overall skills and drive organizational success.

Work Experience (~10 Years)

Morgan Stanley, Bangalore — Lead Consultant   Payroll: Genpact
May 2021 - **Serving Notice Period** (LWD: 03-Aug-2024)
- Led a team of 3 to successfully upgrade a sophisticated application from Angular 7 to 15 in less than 5 months.
- Led module development for various features in a travel application, enhancing functionality and user experience.
- Identified and resolved elusive bugs using good debugging techniques, earning client appreciation.
- Increased API efficiency by 20% using TPL and async-await, boosting application performance.
- Mastered Chatbot Amelia and applied BPNs to automate travel features, streamlining agent processes.

Ingram Micro, Chennai — Software Engineer
Nov 2017 - May 2021
- Managed full-stack development using Angular 10, .NET Core, and SQL, reducing costs by $22k.
- Developed and customized SPA features with maps, charts, and tables using HTML, CSS, and Bootstrap, enhancing UI experience.
- Implemented advanced security measures using AES & RSA encryption and JWT authentication, safeguarding the application.
- Transformed client requirements into a new product using C# and Selenium for data scraping and processing, delivering a robust solution.

Cognizant, Chennai — Programmer Analyst
Jun 2014 - Nov 2017
- Developed an Expert Finder app using Angular 4, .NET Core, C#, and SQL, providing a seamless platform for expert identification.
- Upgraded user experience by replacing an SSRS report with a .NET app using C# & jQuery, enhancing report accessibility and interaction.
